Doing Things "The HLA Way"

No child can be reduced to a number.

That's why, at Heritage Leadership Academy, our commitment remains steadfast in nurturing the whole child – body, heart, and mind. Heritage is dedicated to awakening the leader within each Leader and empowering them to bring about positive change in their community.

Heritage is committed to Leaders becoming independent thinkers, active problem-solvers, inquisitive readers, diligent researchers, prolific writers and articulate speakers.

To ensure every student reaches these lofty, yet attainable goals, Heritage provides a student-centered program that promotes academic excellence through enriched, rigorous inter-disciplinary curricula. The Illinois Learning Standards and Common Core are embedded in the foundation of our curriculum.

By integrating meaningful technology into innovative classroom settings, our students engage in a blended learning format that is sure to individualize student achievement. In essence, students learn at their own pace. This approach allows Educators to provide more one-on-one time with students.

HLA believes that education is not just about academic success but also about fostering a deep love for learning and a strong sense of character. Our dedicated educators work tirelessly to create a supportive environment where every student feels valued and encouraged to pursue their passions. Heritage celebrates each child's unique talents and strive to build a community where respect, integrity, and faith are at the heart of all Heritage does.

Heritage students will become the bright stars of tomorrow; that's why Staff start calling them 'Leaders' early. From the moment they step into our classrooms, Leaders explore their power to shape their own futures and make meaningful contributions to society. Through collaborative projects, leadership opportunities, and service learning, Heritage nurtures their confidence and abilities.
